

TAG 2007 is a compact, tile-shaped location tag tracker which makes it particularly useful for applications where space is limited.

Using Bluetooth Low Energy (BLE) technology, it enables the localization of assets when in range of Sensolus devices with smart BLE gateway capabilities.

-  Up to 4 years of battery life
-  IP67
-  BLE iBeacon advertising

Connectivity

Transmission range

Strong emission power (+4dBm) enables detection at ranges of 50m or more. Actual detection range is strongly influenced by physical environment.

Mounting and activation

- Instructions for mounting the device are available in the [Sensolus documentation center](#).
- Activation: pull activation strip to activate.

Mechanics & design

Size 26 x 42 x 6 mm	Operating temperature -20°C to +60°C
Weight 15 gram	Casing Resin based polymer
Color White	

Battery

- Up to 4 years battery life depending on transmission power
- User replaceable battery CR2032

Certificates

Europe CE	RoHS Yes
USA FCC	Canada IC
