## Activation of a TAG 2001

There is no activation needed because the tag 2001 is already activated when you receive it.
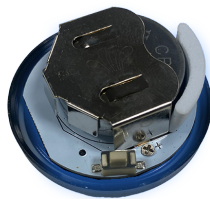

Follow the next steps if you want to verify if the tag is actived.
It's preferred to do this in a dark environment.

| | | | |
|---|---|---|---|
| Open the tag | Press the little button | You will see a blue LED. | Close the tag again |

## Mounting TAG 2001

Guidelines for mounting the tracker can be found in the Sensolus Documentation center.

The spacing between the mounting holes when affixing the tag using rivets, screws, or bolts.

Do not install the tags close to magnets.

## Edit the info of a TAG 2001 with the mobile app.

Download the Sensolus mobile app.

- Open the Sensolus smartphone app and login with your credentials
- Go the tag you want to edit via the asset list, map, or search function. In the search function you can use the QR code scanner to open the tag details page.
- Tap on the edit icon (   ).  You can now edit the name, tags and picture of the tag.
- Save the setting by tapping the save icon (   ).
